[redacted], Chief  
Operations Group, FBIS

Dear Jerry:

Subject: Okinawa Bureau Travel

As you have probably noted from our July FSR, we have approximately \$8K left in our travel allotment between SOC's 2113 and 2135. This is due to a severe cutback in regional engineering travel per our discussions in April and from fewer staff R&R trips this year. I propose using some of this allotment as follows:

1. [redacted] regional engineering trip to Seoul
2. Admin Officer [redacted] trip to Bangkok for discussions with RAMC.
3. Trip to Okinawa for Seoul monitor [redacted] a good transfer candidate--for testing, interviews, and mutual appraisal.
4. Logs Officer trip to Hong Kong and Bangkok, orientation and discussion.

If there are any other trips you wish bureau officers to take this FY, please advise. I believe [redacted] trip to Seoul will suffice in the regional engineering area for the near term, although some emergency might arise that would require his presence. If there are no other travel requirements, we shall turn the remaining 2113/2135 back to Headquarters. If you have some Headquarters officer trip projected for next year that could be taken sooner, we would charge the costs of [redacted] upcoming orientation trip [redacted] to our Bureau allotment.

Best regards,

[redacted]  
Chief, Okinawa Bureau
